- Linux Administrator I and II - 2010

EXTRACT

I am a passionate about software development and a professional informatics engineer with more than ten years of experience, specialized in enterprise application development on WEB, desktop and cloud computing platforms including analysis, design, and implementation, using some of the most popular programming languages and technologies.

Hobbies: Basketball, Meditation, Woodworking.

EXPERIENCE

Engineering Manager at Vacasa | 2021 - present

Leading the development team in charge of the creation, maintenance and availability of the systems and web applications that allow maximizing revenue.

Design solutions based on microservices with AWS technologies: Lambdas, SNS, SQS, RDS and API Gateway among others, taking as a premise the high availability and scalability.

Ensure that high quality standards are met in development using SCRUM, ensuring the right use of technologies with Nodejs, Postgres SQL, Python and React.

Software Engineer at Vacasa | 2018 - 2021

Full stack development using Typescript, JavaScript, Node.js, with NestJS Framework on AWS Services, Angular 6+, Bootstrap. Dynamo DB, Redis, Postgres SQL and MySQL, git. Microservices, Docker. Agile, Kanban, Jira. Circle CI. Working in a multicultural environment with teams from United States and Chile.

Software Developer Freelancer | 2009 - 2018

Custom development and implementation of IT solutions based on customer needs using ASP .NET MVC, ASPX, C#, PHP 5, HTML5, JavaScript, jQuery, JSON, CSS, Visual Basic 6.0. SQL Server up to 2014, MySQL 5.

Some Systems Developed:

- Management system for Centro Diagnóstico por Imágen Sahiret - 2016. CCS, VE.
- Management system for Centro Diagnóstico El Paraíso - 2013. CCS, VE.
- Management system for Asociación Civil Radiólogos Vista Alegre - 2009. CCS, VE.

Some projects as collaborator:

- Supplier Portal for Los Pelambres Antofagasta Minerales - 2016 , 2017. STG, CHL
- Commercial Module for Banco de Costa Rica. 2016 CRI.

.NET Developer | 2015 - 2016

Analysis, design, development, and maintenance of .NET applications using. C#, ASP.NET MVC, Entity Framework, LINQ, Framework 4.5, WCF SOAP and Web API REST Services. SQL Server 2012 and 2014. TFS and GitHub Version Control. Angular and AngularJS, jQuery and AJAX. Working with international teams projects in India, US, UK and Mexico.

Java Developer at Servicios Walkiria | 2014 - 2015

Enterprise Application Development with Java SE 6, Compiere ERP, Eclipse, SVN, Birt Reports, Oracle 11g, SQL Developer, SCRUM.
